PROMO 2022

ESTENSIONE GARANZIA 5 ANNI SUL MASSAGGIO AD ARIA

Il nostro sistema di massaggio linfodrenante a flusso d'aria a variazione continua garantisce al cliente un'esperienza di benessere e relax totale grazie alla qualità dei componenti totalmente made in Italy e ad un'evoluta ingegnerizzazione che permette uno standard qualitativo e di durata al top nel settore.

La produzione diretta e l'assemblaggio all'interno del nostro laboratorio del compressore d'aria ci permette di garantire al sistema **5.000 ore di vita** equivalenti a **30.000 cicli di massaggio**.

L'elettronica sviluppata in collaborazione con un team di ingegneri consente di controllare il numero di massaggi effettuati e di verificare eventuali anomalie attraverso codici di allarme che appaiono sul display della tastiera.

I nostri lavatesta con massaggio prima della spedizione e consegna sono sottoposti ad un processo di **autocollauda di 2 ore** nei quali vengono testate tutte le funzioni di massaggio, intensità e movimentazioni.

L'alta qualità dei componenti utilizzati come gli evoluti motori brushless nel compressore e la sofisticata tecnologia della centralina elettronica ci permette di offrire al cliente, su richiesta, un'estensione di garanzia sui suddetti componenti fino a **5 anni dalla data di acquisto**.

COSTO ESTENSIONE GARANZIA: **275 €** UNA TANTUM A LAVAGGIO

5 YEARS WARRANTY EXTENTION IN THE AIR MASSAGE

Our FULL Lymph-DRAINING AND INVIGORATING MASSAGE BY AIR FLUX system guarantees the customer an experience of total well-being and relaxation thanks to the quality of the components totally made in Italy and to an advanced engineering that allows a standard of quality and duration at the top in the field.

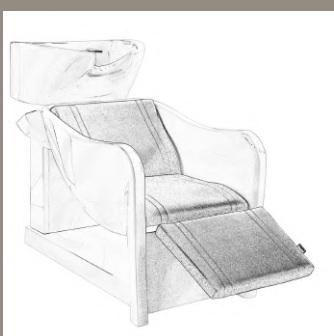

The direct production and assembly of the air compressor within our laboratory allows us to guarantee the system **5,000 hours of life** equivalent to **30,000 massage cycles**.

The electronics developed in collaboration with a team of engineers allows you to check the number of massages performed and to check for any anomalies through alarm codes that appear on the keyboard display.

Our shampoo units with massage, before shipment and delivery, are subjected to a **2-hour self-testing process** in which all the massage functions, intensity and movements are tested.

The high quality of the components used such as the advanced brushless motors in the compressor and the sophisticated technology of the electronic control unit allows us to offer the customer, upon request, an extended **warranty** on the aforementioned components up to **5 years** from the date of purchase.

WARRANTY EXTENSION COST: **275 €** "UNA TANTUM" EACH WAHSUNIT
